Dr. Taggart in Doubt. [Special to The Indianapolis News.] JEFFERSONVILLE, November 5.—David McClure's majority for joint senator from Clarke and Jefferson counties is two. I saw Dr. Taggart just now. He says he doesn't know whether to give up or not. In case of a contest, Union township, republican, would probably be thrown out, return is irregular, thus increasing Mc as the return is Clure's majority.

The Shoestring District. This afternoon the republicans at head-quarters claim that they have carried the repre-sentative district of Vermillion, Vigo and Sullivan, heretofore conceded to the democrats, But The News's special advices from there does not bear out the claim.

Interest in Washington. [Special to The Indianapolis News.] WASHINGTON, November 5.-News from Indiana and Carlisle's district is eagerly looked for to-day. Both sides claim the election in Car lisle's district, and both claim the legislature in Indiana. It is reported that Postmaster Dalte

THE GENERAL RESULT.

Minnesota In Doubt on the Head of the Ticket-Myron Reed Probably Elected. St. PAUL, November 5.—Returns come in dowly, and the election of McGill and Ames for governor is claimed by the republicans and demo-crats, respectively, by a small majority. The rest of the republican state ticket is elected by 15,000. The republicans will have a majority of he legislature and control both branches. The Evening Dispatch, from the returns re-eived, and with estimates of the precincts not yet heard from, figures out a majority for Ames (dem.) for governor of 1,571.

MILWAUKEE, November 5 .- Telegrams lating him on the triumph of law and order over the anarchist agitators. Last evening the gover-nor returned from his home at Viroqua to the apital at Madison. So great was the pressure capital at Madison. So great was the pressure of callers to extend congratulations that the governor held a levee at the Vilas house. More than five hundred people called. Governor Rusk estimates that his plurality will exceed 39,000. From complete returns from all the legislative districts the Senutinel figures that the republicans will have a majority of thirty-six over all opposition in the legislature on joint ballot, and that they control both the senate and the assembly.

TRENTON, November 5 .- The legislature by the latest count, has a democratic majority of one on joint ballot, without Donohue, the labor assemblyman of Passaic. There will be recounts
in Salem, Burlington, the third district of Passaic
the second of Mercer and the second district of
Essex countles.

Dakota.

CANTON, November 5 .- Complete and reliable reports from eleven south Dakota counties show a reduction of 50 per cent, in the majority for Gifford, the republican candidate for re-election as congressional delegate. Twenty-one counties in the whole territory show a net republican loss of 80 per cent., which would give Gifford but

Miss Alice J. Sanborn, daughter of Luther B., Sanborn, of Freeport, III., was chosen superintendent of schools is Brule county. Of the 1,600 votes polled, she received about 1,000 to some 600 for Professor Hiatt, the republican candidate. Miss Sanborn was the regular nominee of the democratic and farmers' alliance parties. She was granted a leave of absence from Freeport school as teacher a few weeks ago, and soon after reaching Dakota was nominated to the office to which she has now been elected. She was not a stranger

Colorado. Last evening the Denver Tribune-Republican telegraphed The News as follows:
"The democrats claim Reed's election. He is probably defeated by 1,000."
But Associated Press dispatches this morning say the contest is very close. Reed polled a heavy labor vote. The democrats elect their governor, and probably a majority of the legislature.

Some Doubtful Districts.

CINCINNATI, November 5 .- Speaker Carlisle is probably elected, but by a narrow margin. He claims a majority of 400 to 600. The official count began to-day in the eight counties composing the district and must be completed. Unforunately for those who are anxious to learn the final result, the counties whose votes will decide the matter are almost inaccessible. Two of them have neither railroads nor telegraph, but it is probable that enough information may be obtained some time during the night to furnish material for a decisive statement of the result. The opinion here is universal that the cause of the surprisingly close contest lay in the fact that nearly all the democrats in the back counties were unaware of any formal opposition to Mr. Carlisle, and thousands of democrats stayed at home. Boone county, which will give Carlisle about 500 majority, is democratic by at least 3,500, and this is a sample of the indifference. The 2,000 majority for Thobe in Campbell and Kenton counties is due chiefly to the large number o Knigats of Labor in Covington and Newport. The chances this morning are decidedly favorable to Mr. Carlisle. the matter are almost inaccessible. Two of them

Mr. Carlisle.

The remarkably close race between Little (rep.) and Campbeil (dem.) in the seventh Ohio district will be settled to-night by the official count. Greene and Butler counties are the only counties that have not made the official count, and they begin this afternoon. Meanwhile, both sides claim an election by majorities of from 5 to 20.

Charging Republicans With Treachery. NEW YORK, November 5 .- Robert Ray Hamilton, a leading republican of the tenth congressional district, publishes a statement that he is prepared to prove that Mike Cregan, the reiblican "boss," sold out Mr. Allen Thorndyke publican "boss," soid out Mr. Allen Thorndyke Rice, the republican candidate for chipress, and substituted at the booths in the sixteenth assem-bly district enough tickets for General Spinola to secure the latter's election. Mr. Hamiton also states that Mr. Rice paid Cregan extremely liberal sums to cover all election expenses, and was assured that Mr. Cregan would stand by him.

A New Party Organized. NEW YORK November 5.—The Central nent political organization. A call will be issued soon to all districts for delegates to a convention which will be held at an early date, and at which it is proposed to form a new party that shall take an active part in the canvass of 1888.

with the order of Master Workman Butler, 1.500 of the beef killers employed in Armour's packing house joined the strikers already out in making a demand that their employers should re-establish the eight-hour working day. About 200 men remained at work at Armour's beef department and that house is killing a four extile as parallable. and that house is killing a rew cattle as usual this morning. The pork men are all at work as usual. PHILADELPHIA, November 5.—The troubles between the textile fabric manufacturers and their employes were settled last night, by which a strike of 27,000 operatives was averted. The complaints against Trout's mill were withdrawn, except with reference to wages, which will be arbitrated. It was also agreed that the general executive board of the Knights of Labor, in connection with the aid committee of the Philadelphia Manufacturers' association, shall formulate a set of rules which shall govern them in the settlement of all further difficulties between employes and employers, to the end of hereafter preventing strikes and lock-outs.

THE OFFICIAL VOTE

THE INDIANAPOLIS NEWS

TWO DEMOCRATS COUNTED IN.

tuous Meeting of the Board This Forenoon, and Peculiar Proceedings.

The work of canvassing the vote of the county, which was begun by the board at 10 o'clock yesterday morning, was concluded this noon after a very turbulent session. A considerable portion of the time was spent in wrang ling over the vote in the various precincts, and, as officially determind at last, so many changes were made from the original reports as to elect Ayres criminal judge and Morrison coroner by small majorities. On the face of the returns Mr. Irvin had a majority, but the changes and erasures which were made by order, or at least by consent, of the board, and Mr. Bernhamer, the chairman, resulted in giving Ayres a small ma-jority. The methods by which this was accom-plished were arbitrary and to a certain extent, suspicious. Mr. Bernhamer laid aside as informal, the returns from the second precinct of the fourth ward, because the certificate appeared on the first instead of the last page of the list and othing was seen of them until 3 o'clock this nothing was seen of them until 3 o'clock this morning, when they were again taken up. On this return Mr. Irvin's original vote was 231, but it had been reduced to 210 in the interim by the tallies ocing rudely scratched off with an eraser, as well as the first two figures and total as they were written, and these tallies had been added to Ayres's vote, raising it from 161 to 182. The republicans, through John B. Elam, W. H. Morrison and others, vehemently objected to this vote being counted, but it was, just the same. The duplicate sheets were brought in to corroborate the vote in the sixth ward, but Bernhamer refused to allow this to be done in other wards that were in dispute. In reversing his first decision to suit the occasion he had Irvin's vote in the second precinct of the thirteenth ward recorded at 190, although the certificate gave him 206, and Hugo's (democrat) 166, the certificate giving him only 150. The new figures were in a different kind of ink from the first and Mr. Morrison wanted the duplicate certificates brought in, but Bernhamer would not allow it. Morrison charged that the tally sheet had been marked up during the day and that the lock was yet scarcely dry. Various other disputed votes were all deended in the same way, so that Mr. Irvin's apparent majority was reduced wherever a change was made, and the votes thus taken away, were given to norning, when they were again taken up. On the day and that the lack was yet searcely dry. Various other disputed votes were all decided in the same way, so that Mr. Irvin's apparent majority was reduced wherever a change was made, and the votes thus taken away, were given to Ayres. It did not take much of this kind of business to elect, apparently, the latter, for Irvin's vote was thus reduced, 16 in the second precinct of the thirteenth ward. 12 in the first of the seventeenth, 11 in the second of the eighteenth and 32 in the first of the twenty-third. When the last mentioned vote was being considered, Lorenz Schmidt, the democratic inspector, protested against the further reading, saying there had been changes made in the returns which he could not account for, and he wanted the duplicate sheets brought in, but the chairman again ruled that this could not be done, although he had allowed it previously. While all these things were being done there were corresponding reductions being made in the vote of Mr. Hugo, but they did not succeed in quite wiping out the first named gentleman's majority, although for a time it looked like they had. Dr. Wagner, the republican candidate for coroner, however, was less fortunate. By the alleged "count" he lost 25 votes in the second precinct of the twenty third ward, 30 in the first of the twenty-fourth and various others, which gave Dr. Morrison 133 plurality. Griffiths's majority over Hugo was left at 336. In many respects the proceedings of the board were irregular, and in accordance with the arbitrary rulings of Mr. Bernhamer, who had evidently carefully prepared himself for the occasion. On the face of the returns as they came in, Mr. Irvin was elected criminal judge by a good majority, and it is very strange that the supposed "mistakes" which occurred in the first returns should all have been against Mr. Irvin in flavor of Mr. Ayres.

The count proper was finished about daylight this morning, and Mr. Henry Schlotzhauer was called in to add up the figures. On one of his first efforts he made the topal show that

was manly done. While the additions were being made, the members of the board generally allowed themselves pay for six days services and the judges and clerks for three days. The work of finishing up the business was slow and laborious, as the total vote had, to be copied on the official returns and signed by the inspectors. As the vote for each office was announced, Mr. Bernhamer dramatically declared who was 'elected. The signing of the returns was finished just at noon, and the board was declared adjourned. Twelve inspectors had gone home without signing, but seventy-eight had signed and that was sufficient. The candidates and others interested, who had been up all night, went home to rest and reflect, and the crowd of curious spectators slowly dispersed.

Mr. Join B. Liam this alternoon prepared a protest, to go as a part of the record, on the return, stating that the signers had affixed their signatures to the official certificate, but at the same time they protested against the count of the yote for criminal judge, clerk and coroner. This protest, it is understood, will be signed by Messra. protest, it is understood, will be signed by Messrs. Morrison, Many, Hessong, Griffiths and Furnas, the republican inspectors, and the subsequent steps, as one of the republicans stated, will be to file a petition in the circuit court asking for a recount of the vote for these offices. It is also stated that Mr. Rollins will contest the election of Mr. Sulivan, but he has not definitely decided to do so. In addition to this Mr. Lorenzo Schmidt, the democratic inspector from the first precinct of the twenty-third ward, will file a protest of his own, but he declined to say to a News reporter what its character was. It is understood, however, that it will be against counting the vote of his precinct, as it has been counted, as the tally sheet was undoubtedly changed after it had left his hands.

The following, which is signed by only one inspector, but which will receive more signatures, was placed on record this afternoon.

"We, the undersigned inspectors, sign the above return as correct except as to the votes therein counted and canvassed for the democratic and republican candidates for judge of the criminal court of Marion county, and as to these we protest and object, and protest against the votes counted in this return as not being the correct return made by the election boards, and as showing a person elected to said office who was not elected thereto.

John H. Furnas."

Mr. Lorenz Schmidt wrote out his protest partially, but left it unfinished until he could get some figures he wanted. It reads as follows:

"I protest against the correctness of this certificate in the cases of William J. Hugo, John L. Griffiths, William Irvin and Albert F. Ayres, because the tally sheet and certificate of the first precinct in the twenty-third ward was changed, while temporarily out of my hands, so as to increase the vote of William J. Hugo, 52 votes, and Albert F. Ayres 16 votes and diminish the votes of John L. Griffiths 27 votes and William Irvin 16 votes." The following, which is signed by only one in-16 votes."

dent, with Eugene Sauley as clerk of the board. The Slick Six in their palmiest days failed to hold a candle to the Coyism of the present, and if the latter received a hint of his methods from the other, he has improved upon the original in a miraculous way.

While Alderman Schmidt was protesting against the return from his precinct until it could be compared with the duplicate in possession of the clerk, and Bernhamer was crying him down as out of order, Dinnin, the only one who has heretofore never attempted to biossom as an orator, called upon Bernhamer to stand firm, and fired his blood by asserting that it was only it for tat, at best, as the chairman had been deprived of the emoluments of office by similar deals in his ward. Dinnin was not a member of the board, and he had no more right to talk than he had to pray in that crowd; but while the chair rapped him to order, it was done so gently as not to shut him off. He finished his speech in great shape.

Last night some one carried the news to Henderson of the alleged intention of the canvassing board to count out Griffiths and put in Hugo, and Henderson is credited with responding: "Those fellers are d—d fools, for the house will be republican, and will re-seat him." Eventually this fact must have dawned upon the board, for Griffiths was given a show for his white alley.

publican, and will re-seat him." Eventually this act must have dawned upon the board, for Griffiths was given a show for his white alley. Ben. Hyman has gotten up for the Herald a very clever cartoon, illustrating how the democracy received the news. Several of the leaders are pictured in a weeping attitude. Senator Voornees holds in his hand a lamb, which has been ripped up in front, typical of the false which has befallen John E. Lamb in the Vigo district, and the senator is made to say, amid his tears, "Oh! my lamb." Postmaster Jones, wearing a mail-carrier's uniform, is lamenting that those anti-Bynum circulars seem to have miscarried, "like all the rest of my mails." ried, "like all the rest of my mails," Then there is Billy English, clothed in sackcloth, with Mugwump Bailey pouring ashes over him, and the senior English is serenely seated near on a barrel of money, remarking they "got none of this." The only satisfied personages are Bynum, who is inseribed as the "Seventh District Colossus," and

Jim Rice, who is prompt to say, in a complacent mood, "I ain't in this." There is also a drive at John J. Cooper for not opening the books, and at Gray and McDonald, who are bathed in tears over the senatorial outlook, and so it runs. The whole thing is admirably conceived in its humor. The New Record is smothered in grief over the election result, and it says: "So far as Mr. Bynum's democratic opponents were concerned, they came up to the seratch, the only exceptions being a few contemptible political cowards like Will English, Ben Jones and young Mogan, Hendricks's nephew. Had Mr. Harris polled his party vote, Mr. Bynum would have been badly defeated." And again it adds: "In our opinion, the democratic party can blame the defeat of the state ticket not on Cleveland, but on John J. Cooper. If Mr. Cooper's books were straight two years ago, he should not have prevented an investigation by the legislature."

From the assembling of the canvassing board until the adjournment, a set purpose was felt in the air to defeat the election of Irvin to the criminal bench, this more particularly by the Coy element, and there seemed to be more watchfulness of this point than for anything else on the ticket. That such was the case was fair to presume from the treatment he received in the fourth and twenty-third-ward returns, and it was certainly pretty flagrant when a democratic inspec-

sume from the treatment he received in the fourth and twenty-third-ward returns, and it was certainly pretty flagrant when a democratic inspector (Schmidt) felt constrained to protest. Mr. Ayres was nominated for judge by the saloon strength, headed by John Huegele, and the fight was by influences which foretell no good to the county in the enforcement of liquor laws. If Ayers intends the public to be disabused of this idea he has a task before him which would appall a much abler man. He has still his ability as a lawyer to establish, for it has not yet been recognized, and the jubilation with which his success is received does not come from an element calculated to impose confidence in any purpose on his part to enforce the law without regard of fear or favor.

had done so.

The republicans claimed this afternoon that they had positive proof that one of the democratic inspectors last night changed the fally-sheet of his precent so as to reduce lively sole, and that two men will swear that they saw him do this.

"Has the state gone democratic?" asked a gentlemen of Councilman Haugh, at the Penison, last night. "Don't know," was the reply, "but if they will only send the returns over to the court house to be counted, it will before morning."

last night. "Don't know," was the reply, "but if they will only send the returns over to the court house to be counted, it will before morning."

It was rumored this afternoon that John E. Sullivan would try to get possession of the cierk's office at once, claiming that Mr. McLain's term ended with the qualification of his successor. Mr. McLain, however, says the law requires him to issue a certificate to the successful candidates within ten days after the decision of the board of canvassers, and he is, therefore, in no hurry to get Mr. Sullivan in and himself out.

Another complication in the legislative situation is threatened. One of the representatives of the labor element, who was elected, says that if there is a very close contest for United States senator, the members of the assembly who were elected by the labor vote will combine and try to elect their own candidate, regardless of their party affiliations.

Sylvester Johnson, of the probibition committee, to-day received a dispatch from Ohio, stating that their vote there would be 35,000 to 11,000 for St. John two years ago. In this state they think it will reach 11,000. They already have full returns from the first district, where they cast more than 1,000 votes to 104 in 1884. They are still encouraged.

Jack Landers: "They don't need any committee of safety, just put the whole business in Bynum's hands and it will be all right."

Eugene Sauicy, one of the republican candidates, spent the night with the canvassing board, and this morning went out to lunch. When he attempted to re-enter the room he was thrust back by Patrolmen Davis and Nelson, who failed to recognize him, but he made a rush and got through. The police again selzed him, or rather attempted to, and there was every prospect of a lively time when Sauley was recognized by Captain Colbert as having rights in that room which should be recognized and he was let alone.

A friend of William Irvin doubts the feasibility of a successful contest, for the reason that the margin being so close, a m-

The call, the state officer said, was couched in the following

"A part of the same disreputable gang which stole the state in 1876, headed by W. W. It is time that Dorsey-Dudley methods should cease. All opposed to them are invited to meet, etc., to thwart the schemes of these infamous political marauders."

MACKIN METHODS.

BEFORE FEDERAL GRAND JURORS

Judge Woods Asked to Have Marion County Alleged Election Frauds Investigated-The Proceedings.

Republicans this forenoon discussed excitedly the conduct of Chairman Coy and W. F. A. Bernhamer in the county canvassing board. That there were evidences of fraud in erasing and changing returns admitted of little doubt and at a conference of citizens of prominence it was determined to locate if possible the fraud and punish the offenders. The case is similar in some respects to the celebrated Chicago frauds and philish the offenders. The case is similar in some respects to the celebrated Chicago frauds in which Joe Mackin figured so conspicuously. It was determined to ask the federal court to instruct the grand jury to summon witnesses and to investigate the charges that election frauds had been perpetrated in violation of the statutes of the United States. The query was raised whether the statutes would cover frauds committed in counting the vote on county officers. Legal advice was had, and it was found that section 5,515 of the revised statutes of the United States provided for such cases as the present.

United States provided for such cases as the present.

By this section "every officer of an election at which any representative or delegate in congress is voted for, whether such officer be appointed or created by or under any law or authority of the United States, or by or under any state, territorial, district or municipal authority or law, who neglects or refuses to perform any duty in regard to such election required of him by any law of the United States or of any state or territory thereof, "or who fraudulently makes any faiso certificate of the result of such election in regard to such representative or delegate, or who neglects or refuses to make or return such certificates as required by law" commits a crime. In the Chicago conspiracy case this law was interpreted to be applicable to alleged manipulations of the returns for local as well as federal officers. With this as a precedent and plainly within the intention of the statute, it was determined to present the facts and charges before Judge Woods.

This afternoon the grand jury was called into the court room and the following charge was delivered by Judge Woods, in which he cautioned them that the investigation was limited to no particular and the court was limited to no particular and charges the sum of the particular and the present the facts and charges the facts and the following charge was delivered by Judge Woods, in which he cautioned them that the investigation was limited to no particular and the facts and charges the facts and the particular and the sum of the present the facts and the following charge was delivered by Judge Woods, in which he cautioned them that the investigation was limited to no parthem that the investigation was limited to no particular charge or county. GENTLEMEN OF THE GRAND JUEY—In consideration of representations and requests made to me as judge of this court, I find it my duty to call your attention especially to the statute defining certain offenses against the United States in regard to the elective franchise. By section 5.5° it is provided, among other things, as follows: "If at any election for representative or delegate in congress any person knowingly * by any unlawful means, induces any officer of an election, or officer whose duty it is to ascertain, announce or declare the result of any such election, or give or make any certificate, document or evidence in relation thereto, to violate or refuse to comply with his duty, or any law regulating the same * or advises any such voter, person or officer to do any act hereby made a crime, or attempt to do so, he shall be punished by line or imprisonment or both."

And by section 5.51°2, among other things: "If any such officer or other person, who has any duty to perform in relation to such election, in ascertaining, announcing or declaring the result thereof, or in giving or making any certificate, document or evidence in relation thereto, knowingly neglect or refuse to perform any duty required by law, or violates any duty imposed by law or does any act unauthorized by law relating to or affecting such election, or the result thereof, or relating to or affecting any certificate, document or evidence in relation thereto, frowingly neglect or refuse to perform any duty required by law, or violates any duty imposed by law or does any act unauthorized by law relating to or affecting any certificate, document or evidence in relation thereto, or if any person aids, counsels, procures or advises any such voter person or officer to do any act hereby made a crime, any such person shall be punished in like manner."

The court also quoted sections 5,515 and 5,403 and continued:

a crime, any such person shall be punished in like manner."

The court also quoted sections 5,515 and 5,403 and continued:

Besides these provisions, which declare specified acts and omissions to be crimes, there is another section—5,440—which defines criminal conspiracies (quoting the statute). These provisions you will observe, in so far as they relate to the elective franchise, are confined to elections for representatives or delegates to congress, or elections at which a representative or delegate in congress is voted for. It is this face which brings the subject within the purisdiction of the federal courts to enforce such regulations as congress has enacted. It is not necessary, however, in order to make a violation of the iaw, that the acts committed shall have been of such conduct should have been in respect to any election at which a representative or delegate to congress was voted far. The particular charge which has been brought to my attention is that tally sheets and footings of ballots, used at the election just held in this city and county, have been improperly tampered with and altered. If this has been done, all who participated directly or indirectly in the act, and any who aided, counseled, procured or advised its commission are guilty; and proper evidence can be obtained indictments should be returned accordingly; or if the evidence shall disclose some other form of oifense, you will make your return accordingly to the fact. You will, of course, understand that your investigations upon this subject are not meant by the court to be restricted to any particular charge or county. This charge is mentioned only because it alone has been brought to my attention. It is your duty to investigate any case or charge brought to your attention in such a way as to seem to you worthy of consideration, 'The district attorney, by reason of having recently made a particular study of the statutes to which I have called your attention, is especially well prepared to give you such assistance as you will need from him in any investigation which shall be determined to prosecute. I leave the responsibility with you, gentlemen, not doubting that you fully appreciate the importance of the subject, and that you will impartially and fearlessly do your duty, each as he shall see it to be.

Sim Coy's Counter-Threats. Sim Coy, for the first time within the mowledge of the oldest reporter, lost his suavity of temper and was in a savage frame of mind this

"Have you heard of the proceedings in the federal court?" was asked of him. He had not, and upon learning what had been done, he said

with unwonted energy:

"That's right. These d—d blankety blanked thieves, who have been robbing this county for twenty years, ought to be brought to justice. They have been defrauding the voters and robbing the people, and I know it."

"Will you go before the grand jury and tell what you know, if you believe these things?"

"That's my business." (With great emphasis and desperation.) "I know enough to drive s hundred men out of this town?"

"Why not tell it?"

"Why not tell it?"

"That's my business, and no blankety d—d court can compel me to tell what I know."

Mr. Coy, for once, is evidently thoroughly disturbed. He was full of expletives and bitter denunciation and railed unsparingly upon unnamed persons whom he declared had defrauded the county for years. He seemed to present these things in rebuttal of the charges implied in the court proceedings that there was fraud in the manipulation of returns presented to the canvassing board. He intimated that certain politicians, presumably political opcertain politicians, presumably political op-ponents, had swarmed around the canvassing board with the avowed intention of counting out

Republicans throughout the state are jubiant over the result on the state and congres-sional tickets, and, basing their hopes upon the sional tickets, and, basing their hopes upon the claums of the state central committee, still expect Senator Harrison to succeed himself on joint ballot. On the face of the returns the democrats have two majority. Various of the successful candidates have been made the subjects of receptions and jolification meetings.

The latest returns show that the head of the ticket in Minnesota is in doubt. Mr. Reed has probably been elected in Colorado, but the official count will have to decide, Mr. Carlisle claimes his election by 500 or 600 majority. The Henry George Central Labor Union Campaign

He says he doesn't know whether to give up or not. In case of a contest, Union town-ship, republican, would probably be thrown out, as the return is irregular, thus increasing Mc-Clure's majority.

MILWAUREE, November 5 .- Telegrams and letters are pouring in upon Governor Rusk rom leading men all over the country, congratu-lating him on the triumph of law and order over the anarchist agitators. Last evening the governor returned from his home at Viroqua to the capital at Madison. So great was the pressure capital at Madison. So great was the pressure of Gallers to extend congratualisions that the governor held a levee at the Vilas house. More than five hundred people called. Governor Rusk estimates that his plurality will exceed 39,000. CANTON, November 5.—Complete and reliable reports from eleven south Dakota counties show a reduction of 50 per cent. In the majority for Gifford, the republican candidate for re-election as congressional delegate. Twenty-one counties in the whole territory show a net republican loss of 80 per cent., which would give Gifford but 11,000 majority.

Miss Alice J. Sanborn, daughter of Luther B. Sanborn, of Freeport, Ill., was chosen superintendent of schools is Brule county. Of the 1,600 votes polled, she received about 1,000 to some 600 for Professor Histt, the republican candidate. Miss Sanborn was the regular nominee of the democratic and farmers' alliance parties. She was granted a leave of absence from Freeport school as teacher a few weeks ago, and soon after reaching Dakota was nominated to the office to which she has now been elected. She was not a stranger there, however, as in March, 1835, she took up a claim on the Crow creek Indian reservation in that county and lived there for some time. In 1838 she graduated from the Wisconsin university.

Last evening the Denver Triome-Repablican telegraphed The News as follows:

"The democrats claim Reed's election. He is probably defeated by 1.000."

But Associated Press dispatches this morning say the contest is very close. Reed polled a heavy labor vote. The democrats cleet their governor, and probably a majority of the legislature. Some Doubtful Districts.

CINCINNATI, November 5 .- Speaker Carlisle is probably elected, but by a narrow margin. He claims a majority of 400 to 600. The official count began to-day in the eight counties compos-ing the district and must be completed. Unfor-tunately for those who are anxious to learn the final result, the counties whose votes will decide the matter are almost inaccessible. Two of them have neither railroads nor telegraph, but it is probable that enough information may be obtained some time during the night to furnish material for a decisive statement of the furnish material for a decisive statement of the result. The opinion here is universal that the cause of the surprisingly close contest lay in the fact that nearly all the democrats in the back counties were unaware of any formal opposition to Mr. Carlisle, and thousands of democrats stayed at home. Boone county, which will give Carlisle about 500 majority, is democratic by at least 3,500, and this is a sample of the indifference. The 2,000 majority for Thobe in Campbell and Kenton counties is due chiefly to the large number of Kingats of Labor in Covington and Newport. The chances this morning are decidedly favorable to Mr. Carlisle.

Mr. Carlisle.

The remarkably close race between Little (rep.) and Campbell (dem.) in the seventh Ohio district will be settled to-night by the official count. Greene and Eutler counties are the only counties that have not made the official count, and they begin this afternoon. Meanwhile, both sides claim an election by majorities of from 5 to 20. Charging Republicans With Treachery,

NEW YORK, November 5 .- Robert Ray Hamilton, a leading republican of the tenth congressional district, publishes a statement that he is prepared to prove that Mike Cregan, the relican "boss," sold out Mr. Allen Thorndyke lice, the republican candidate for congress, and Rice, the republican candidate for congress, and substituted at the booths in the sixteenth assem-bly district enough tickets for General Spinola to secure the latter's election. Mr. Hamilton also states that Mr. Rice paid Cregan extremely liberal sums to cover all election expenses, and was assured that Mr. Cregan would stand by him.

A New Party Organized. NEW YORK, November 5 .- The Central abor Union campaign committee met last night and considered the question of forming a permanent political organization. A call will be issued soon to all districts for delegates to a convention which will be held at an early date, and at which it is proposed to form a new party that shall take an active part in the canvass of 1859.

CHICAGO, November 5 .- in accordance with the order of Master Workman Butler, 1,500 of the beef killers employed in Armour's packing house joined the strikers already out in making a demand that their employers should re-establish the eight-hour working day. About 200 men remained at work at Armour's beer department and that house is killing a few cattle as usual this morning. The pork men are all at work as usual. The republicans, through John B. Elann, W. H. Morrison and others, vehemently objected to this vote being counted, but it was, just the same. The duplicate sheets were brought in to corroborate the vote in the sixth ward, but Bernhamer refused to allow this to be done in other wards that were in dispute. In reversing his first decision to suit the occasion he had Irvin's vote in the second precinct of the thirteenth ward recorded at 190, all-livough the certificate gave him 256, and Hugo's (democrat) 166, the certificate giving him only 130. The new figures were in a different kind of ink from the first and Mr. Morrison wanted the duplicate oettificates brought in, but Bernhamer would not allow it. Morrison charged that the taily sheet had been marked up during the day and that the ink was yet scarcely dry. Various other disputed võtes were all decided in the same way, so that Mr. Irvin's apparent majority was reduced wherever a change was made, and the votes thus taken away, were given to Ayres. It did not take much of this kind of business to elect, apparently, the latter, for Irvin's vote was thus reduced, 16 in the second precinct of the thirteenth ward, 12 in the first of the seventeenth, 11 in the second of the eighteenth and 32 in the first of the twenty-third. When the last mentioned vote was being considered, Lorenz Schmidt, the democratic inspector, protested with the qualification of the board of canvassers, and he is, therefore, in no hurry to get Mr. Sulliven in and himself out.

Another complication in the legislative situation is threatened. One of the prohibition complete the duplicate sheets brought in but the chalirman again the duplicate sheets brought in but the chalirman again the duplicate sheets bro of the thirteenth ward, 12 in the first of the seventeenth, 11 in the second of the circhteenth and 32 in the first of the twenty-third. When the last mentioned vote was being considered, Lorenz Schmidt, the democratic inspector, protested against the further reading, saying there had been changes made in the returns which he could not account for, and he wanted the duplicate sheets brought in, but the chairman again ruled that this could not be done, although he had allowed it previously. While all these things were being done there were corresponding reductions being made in the vote of Mr. Hugo, but they did not succeed in quite wiping out the first named gentleman's majority, although for a time it looked like they had. Dr. Wagner, the republican candidate for coroner, however, was less fortunate. By the alleged "count" he lost 25 votes in the second precinct of the twenty third ward, 30 in the first of the twenty-fourth and various others, which gave Dr. Morrison 133 plurality. Griffithis's majority over Hugo was left at 338. In many respects the proceedings of the board were irregular, and in accordance with the arbitrary rulings of Mr. Bernhamer, who had evidently carefully prepared himself for the occasion. On the face of the return as they came in Mr. Irwin was elected criminal judge by a good majority, and it is very strange that the supposed "Instakes" which occurred in the first returns should sit have been against Mr. Irvin in favor of Mr. Ayres.

The count proper was finished about daylight this morning, and Mr. Henry Schotzhauer was called in to add up the figures. On one of his first efforts he made the total show that Mr. Suilivan had been defeated for clerk, and that gentleman was hastily summoned from his home, and when he got to the court room had the count stopped until the matter was corrected, which was finally done. While he additions were being made, the numbers of the board generally allowed themselves pay for six days', services and the judges and clerks for three days. The work of mi

being maile, the members of the board generally allowed themselves pay for six days' services and the judges and elerks for three days. The work of finishing up the business was slow and laborious, as the total vote had to be copied on the official returns and signed by the inspectors. As the vote for each office was announced, Mr. Bernhamer dramatically declared who was elected. The signing of the returns was finished just at noon, and the board was declared adjourned. Twelve inspectors had gone home without signing, but seventy-eight had signed and that was sufficient. The candidates and others interested, who had been up all night, went home to rest and reflect, and the crowd of curious spectators slowly dispersed.

Mr. John B. Elam this afternoon prepared a protest, to go as a part of the record, on the return, stating that the signers had affixed their signatures to the official certificate, but at the same time they protested against the count of the wore for criminal budges elected against the count of the

It is also a ted that Mr. Rollins will contest the election of Mr. Sullivan, but he has not definitely decided to do so. In addition to this Mr. Lorenzo Schmidt, the democratic inspector from the first precinct of the twenty-third ward, will file a protest of his own, but he declined to say to a News reporter-what its character was. It is understood, however, that it will be against counting the vote of his precinct, as it has been counted, as the taily sheet was undoubtedly changed after it had left his hands.

the other, he has improved upon the original in a miraculous way.

While Alderman Schmidt was protesting against the return from his precinct until it could be compared with the duplicate in possession of the clerk, and Bernhamer was crying him down as out of order, Dinnin, the only one who has heretofore never attempted to blossom as an orator, called upon Bernhamer to stand firm, and ired his blood by asserting that it was only tit for tat, at best, as the chairman had been deprived of the emoluments of office by similar deals in his ward. Dinnin was not a member of the board, and he had no more right to talk than he had to pray in that crowd; but while the chair rapped him to order, it was done so gently as not to shut him off. He finished his speech in great shape.

Last night some one carried the news to Henderson of the alleged intention of the cauvassing board to count out Griffiths and put in Hugo, and Henderson is credited with responding: "Those feliers are d—d fools, for the house will be republican, and will re-seat him." Eventually this feat must have davised the news the beaut for bank, of Peoria, III., has been arrested here by Detective Stanley, of Chicago, who has been fol-lowing him for a long time, Hoke has tele-graphed for his wife, who has \$20,000 of his steal-ings, and which he offers to give up as a compro-mise for the \$200,000 he made away with, and which he lost in wheat. Eugene Samey, one of the republican candidates, spent the night with the canvassing board, and this morning went out to lunch. When he attempted to re-enter the room he was thrust back by Patrolmen Davis and Nelson, who failed to recognize him, but he made a rush and got through. The police again seized him, or rather attempted to, and there was every prospect of a lively time when Sauley was recognized by Captain Colbert as having rights in that room which should be recognized and he was let clone.

A friend of William Irvin doubts the leasability of a successful contest, for the reason that the imargin being so close, a m-jority of democrats on the recount can easily overcome it. There was a mistake in the Journal, by which the same precinct was duplicated, and it gave him a greater vote than that to which he was entitled: still, with the error corrected, it left him a clean majority or 43 over and above every possible claim of Ayres. The canvass made him lose a total of 39 voics up to the time when Alderman Schmidt found that his returns had been tampered with, and in which 21 had been taken from his totals and apparently given bodily to his opponent. All this time one of the precincts in the fourth ward had been held out on some alleged informality, and when it was finally submitted, the task of downing Irvin was finished.

In Parke county a curious mixture of results is reported. The prohibitionists have increased their vote 100 percent; Robertson's plurality was 655, and the democrats come in for a share of the spoils in the tented to their county auditor.

COMMITTEES OF

DEMOCRATS FIRST ON HAND, Their "Indignation" Meeting at the Su-

preme Court This Afternoon-General

Meeting of Citizens Called To-Night.

At 3 o'clock this afternoon John W. Kern informed a reporter that a meeting would be held an hour later at the supreme court room, to take steps to defeat alleged attempts of resteps to defeat alleged attempts of re-publicans to perpetrate election frauds. The call was issued by democrats and the entire affair was evidently designed to be un-der democratic auspices, although others were not excluded from participation. The call, the state officer said, was couched in the following words:

words:

"A part of the same disreputable gang which stole the state in 1876, headed by W. W. Dudley, is in the city with the avowed purpose of thwaring the will of the people of Marion county and of stealing the legislature, which all fair-minded republicans councede to be democratic on joint ballot. It is time that Dorsey-Dudley methods should cease. All opposed to them are invited to meet, etc., 40 thwart the schemes of these infamous political marauders."

All opposed to them are invited to meet, etc., to thwart the schemes of these infamous political marauders."

The meeting had evidently not been called until after it was learned that a committee of safety of one hundred was to be named to-night. It was, to all appearances, an attempt to forestall the purpose of to-night's meeting. Mossenger sand a circular were called into use to bring out the faithful. One or two republicans and the following democrats attending the meeting: Chairman Coy, Jim Dowling, Albert Sahm, Adjutant General Koontz, "Goose" Eden, Sammy Perkins, State Secretary Myers, Colonel Maynard, Myron King, Cass. Bingham, W. J. Craig, John E. Sulliven and a hundred others.

The meeting was called to order by the chairman of the county democratic committee.

Mr. Coy stated that the meeting had been called not for the purpose of protecting the ballot."

Eb Henderson was chosen as chairman. He stated that the meeting had been called not for the purpose of committing wrong but to conserve the fruits of Tuesday's elections. IT is a thing for felicitation that Speaker Carlisle is not defeated, as was at first reported. The close shave by which he got through was explained in the extract from the Cincinnati Enquirer yesterday. It was, in short, sheer neglect of the customary proliminaries of an election on the part of his supporters, his immense popularity being taken as a warrant for foregoing all effort. The country is to be congratulated that it did not prove fatal. Not merely is the cause of tariff reform helped by this, but the genent. THE newspaper organs of the two parties respectively are crying "fraud" and "stop thiet," and in all manuer of detail charging secondrelism on those engaged in declaring the official count, and upon others supposed to be able to "hocus" them. These opposing charges might be regarded as a set-off, and they might not. If ever there was an election which more emphatically represented to mere will of the people as opposed to mere voting in constraint of party pressure, it was this one. The people should see to it that no trickery changes the result, and that the verest punishment should follow the slightest attempt at it. Every process should be scrupulously scrutinized, the honest result exactly declared. A majority of one constitutes a force of decision as powerful as one hundred. But it must be a majority with no taint of fraud about it,

WE don't know how it strikes the average republican intellect, still less how it looks to the leaders and propounders of policy, but to us it seems to be no very desirable condition for the party to hold a majority of the house under the late elaction. It will then be responsible for all the legislation that goes into effect. It will be very like old Lorenzo Dow's summary of Calvinism:

"You can and you can't, You will and you won't, You'll be damned if you do: You'll be damned if you don't." A party in the "outs" is much more likely to strengthen itself for the next contest by the blunders of its opponents than by its own wisdom. It is always easy to find objections to public measures. It is not always, nor often easy to make measures so well suited to the time or the needs of the country or rit of the nation as to command the general support of men who have long been antagonists. The positive side has many more rough places to worry through than the negative side. If Gladstone had been in opposition, with no harder task than to tear up Lord Churchill's probable scheme of ocal Irish government, he would have done it to death, and its party with it. The whigs of '40 made their clean sweep because they had twelve years of unmitigated democratic

THE INDIANAPOLIS NEWS government to bunt up fighting material in. If they had been "ins" instead of "outs," with exactly the same bank and tariff and land policy, they would very probably have been beaten or successful by the skin of their teeth. "History is philosophy teaching by example." History says it is a safer position for a party to be "out" in the year of a presidential contest, and to carry it on as the assailants, leaving the "ins" to the defensive. If that be so, the republicans need not cry for a majority in the next house. Better go without.

SENATOR HARRISON'S great victory in this election remains, irrespective of any final fact in the resuit. We are well aware that is the victory of the people of Indiana; that too signally encouraging extent the individual voter made up his ballot according to his conscience; that he put this oppor-tunity to its proper use in passing upon the management of his state, and indicated in a way that will not be quickly nor lightly cast aside, what he thought of matters and things. Nevertheless it was preeminently Senator Harrison above any one man who stated the case to the jury of the people, and who went up and down before them in all the time of the campaign arguing that case, and be got a verdict-a verdict in accordance with the facts and a verdict which is a splendid tribute to his sagacity, zeal and ability. This campaign has brought him closer to the affections of the people, has demonstrated the wisdom of his leadership, and has made him the eminently trusted man of his party, by virtue of service as intelligent as it was constant, as modest as it was earnest. When pages. In addition to the usual complete this campaign began the democratic state officers were intrenched in a majority of over 7,000. The democratic legislature rested in the power of forty-three majority on joint ballot. This was the situation when Senator Harrison, two months ago, stood up and called upon his party for an assault all along the line. The result, we say, shows Sunday by Rev. Phillips Brooks, of how wisely he suggested the plan of battle, with what unstampedable steadiness he fought until the last hour of the evening of the last day. The result is that the state-office majority of 7,000 has vanished and one of four comfortable figures stands on the other side to the credit of their successors, the republican candidates. The forty-three democratic majority in the legislature has crumbled, if not to nothing, next to nothing. If the democrats hold the legislature by a bare majority of one, they will at this juncture consider themselves favored of the gods. We trust sincerely they will not admire tragedy," was the reply. that wasn't tragedy; it was comedy." be. We hope the republicans will have the legislature, even by a bare one. But in any event this does not diminish the luster of Senator Harrison's victory. Rather should it be so that this great opposition strength of fortythree was almost, but not altogether, wiped out, thus making it impossible for the republicans to return the senator to the place he has so honorably and ably filled, it all the more leaves a glad sense of recognition due and to be awarded, and in nothing diminishes victorious rooster Wednesday morning dis- the power of the demonstration to the country at large of the strength of the republicans of Indiana, with Senator Harrison as their leader, to wrench Indiana away from the democratic grasp.

The Penny Was There. [Detroit Free Press.]

A saloon-keeper up Gratiot street sat at his door the other afternoon wondering why it was that so many men in Detroit preferred buttermilk to beer, when two strangers came along. One of them placed a penny on the sidewalk, placed his right heel on the penny, and then bent over to see how far he could reach and mark the flagstone with a nail. As he reached out he lifted his heel off the penny, and the other man picked up the coin, slipped it in his pocket and winked at

He replaced his shoe after a moment, rose up, and bowed courteously and the pair walked off. They were at least half a block away before the victim recovered sufficiently

This story of "Small Robin" is told by Arlo Bates in Harper's Magazine: Arrayed in his new suit, he was at first speechless with sheer delight. A good many persons, after considerable mental difficulty, have been taught to believe that when Robert Burns wrote "Comin' Thro' the Rye" he referred to a little stream in the northwest of Ayrshire, called Rye, where the lads were given to lying in wait and kissing the lassies as they waded through the stream, their hands being employed in holding up their petticoats to keep them ont of the water. Now comes Editor A. B. Todd, of the Cumnock Express, who is said to be an authority in Scottish literature, who was born a few miles from the Burns farm, and an authority in Scottish literature, who was born a few miles from the Burns farm, and was intimate with some of Burns's cronies, and he says that the idea expressed above is pure nonsense; that Burns never saw and and probably never heard of the Rye; that the description of how Jenny "draigelt at her petticoatie" doesn't mean that she wet it in the water of a stream, but bedraggled it walking through dew or rain-laden grain. The hose wagon in charge of engine company No. 3 is one of the most complete pieces of fire apparatus in the department. Its first run to a fire was to box 4 last Tuesday.

The new market house, which is nearly completed, will be given up wholly to the butchers, while the city hall basement will be used by the better and for general purposes.

It was the intention of Mrs. L. O. Robinson to close the revival meetings at Central ave-nue M. E. Church last night, but the excellent re-sults have caused her to change her mind, and the meetings will continue during the next week.

Wm. Splann's peddling wagon team indulged in a runaway yesterday afternoon on Mayland street, and, before breaking the vehicle and throwing Mr. Splann into the street, it nar-rowly escaped collision with the funeral procestion of the late Mr. Raymond.

The News vesterday announced that Harry Pierce had removed his front fence and thrown his lawn open to the public. At a late hour yesterday afternoon two cows and a billy goat had taken possession and appeared perfectly satisfied with the new addition to their pastures.

Yesterday afternoon the burning of a shed, owned by Mrs. Sophia Barnfushier, 156 Reed street, made a run for the fire department, and last night there was a call to the rear of Reaume & Syers' laundry, 72 South Illinois street. The last named fire was also extinguished without material damage.

The biggest dahlia in the city, or that ever was in it probably, was recently growing in the garden of Mr. James Naughton, West South street. It was in its prime, about twelve feet high, and bore at one time twelve full blown flowers. The dahlia is not a fine flower, but it is as gaudy as a circus dress or a congressional obituary speech.

The state health board reports that scarlet fever and diphtheria are becoming epidemic in St. Joseph county. Speaking of these diseases, there is serious complaint in this city, particularly from the southside, that sufficient care is not taken to post the warning flags in similar cases. The most serious complaint in this respect comes from Ray street, near West.

The funeral of the late Rev. Charles H. Raymond was had yesterday afternoon, services being held at the Seventh Presbyterian church, which were conducted by Rev. Mr. Brandt, of St. Louis; Rev. FIRE DEPARTMENT NOTES.

Two Steamer Disabled-A Fireman's Twenty Mile Walk-Notes.

Albert Pease, of engine company No. 2, is gain able for duty.

The firemen at headquarters claim to have masonte in the shape of a crippled canine. Chief Webster's favorite horse, "Chet," is ow doing service in the hose team at engine buse No. 3.

With each of the cold waves fires have hown much improvement. The record is far less han for the same period of last year. The manny friends of Henry Cook are still f the opinion that he will yet come out of the oard of alderman with the majority of votes in

One of the horses of company No. 6 was seriously injured yesterday by striking his hip against the door while leaving the stall at an alarm of fire.

The horse which Sam Dinnin gave \$1,500 in trade in the sale of his saloon, and which, although a young duimal, had a record of 2.18, died hight before last from internal hemorrhage. The water works company were compelled to shut off the water on several of the principal thoroughfares during the past few days to permit repairing several-serious defects in the mains.

Three persons have lost their lives so far this year by being imprisoned by fire, and the firemen are of the opinion that in each instance they were dead before the arrival of the stepart-

The trouble experienced in getting in-formation from a certain insurance agency is giv-ing the department clerk much unnecessary trouble in computing the fire records of losses

and insurance.

Steamer No. 3 has been out of service for several days, caused by the flues giving way, and reserve engine, No. 7, has been filling the vacancy. Yesterday afternoon, while working at a fire, this steamer also became disabled, and the district of that company is now protected by the surround-

ing companies.

The rubber hose now in use in the department is fast giving way, and companies who have this kind are being badly checked from doing effective work by the constant bursting. The cotton hose, now in service, has proved one of the best brands of fire hose ever adopted by the department, and Chief Wester considers it far superior to any brand of rubber hose he has ever seen.

A Public Meeting. To the Editor of The Indianapolis News:

To the Editor of The Indianapolis News:

Republicans and democrats are now charging each other with outrageous violation of the election laws. Some of these charges are probably true, but in the absence of an impartial judicial investigation it is difficult for the lair-minded cirizen to arrive at a satisfactory conclusion as to which are true and which are false. I have long been of the opinion that an organization, composed of an equal number of good men from each party, for the purpose of detecting and prosecuting all cases of corrupt violations of the election laws, regardless of the political or social standing of the criminal, was very much needed in this county, and would do more to purify political methods than any other agency available. And I am ready to assist in forming a pemanent organization of this character to be composed of equal numbers from each party, who shall contribute equally to the expense of the association, and request that all who are willing to join such an association when ten or more responsible names are secured will send their names to your paper, or in such other public manner as they choose to make their washes known, to the end that an early meeting and organization may be effected.

The clothing bags of the Benevolent society will be distributed this and next week. By this method clothing is gathered, which, when made ever, is given out to those in need. Summer bonnets, white kid slippers and silk hats are not wanted. Flannels are especially needed for children and old people. These garments will be cut over, given out to women to sew, then redistributed. In this way 286 days' work was furnished this year. Look over the last winter's clothing and put it in the bag.

I never had any talk with him of the kind, and he never said anything to me about not being a candidate. Charles L. Holstein.
